

## GEARBOX OIL MPX

**Gearbox Oil MPX** is high-quality gear lubricants blended from solvent-refined mineral base oils and selected chemical additives. Due to their high shear stability, they provide excellent protection for gears and can be used over a wide range of temperatures. They also provide protection against foaming of oil, wear and rusting of gears.

### BENEFITS

- Formulated for automotive high-speed gears.
- Excellent lubrication without channeling at low temperatures.
- Suitable for heavy-duty service in truck and bus gears operating at high temperatures.
- Provide good protection against corrosion.
- 

### PERFORMANCE LEVEL

Meets:

- API GL-4

### APPLICATIONS

Recommended for the type of service characteristics of gears, particularly hypoid, in passenger cars and other automotive equipment operated under high-speed/shock-load, high-speed/low torque, and low-speed/high-torque conditions.
